

CHRISTINA S

CSE Student | Data Analytics & AIML Enthusiast

7358023857	christina073056@gmail.com	Chennai, India
------------	---------------------------	----------------

Objective	Dedicated Computer Science student actively learning data analytics, visualization, and basic machine learning. Eager to start as a Data Analyst to apply insights from data, with a long-term goal of transitioning into Data Engineering.
-----------	---

Education	B.E. in Computer Science and Engineering Jaya Engineering College, Affiliated with Anna University – Thiruninravur, Chennai (2023–2027) CGPA: 8.72/10
-----------	---

Technical Skills	Data Analytics & Visualization (Exploring): Python (Pandas, NumPy, Matplotlib, Seaborn), Excel Databases & Querying: SQL (using MySQL) Machine Learning & AI (Exploring): Regression, Classification, NLP basics Dashboard Tools (Exploring): Tableau, Power BI
------------------	---

Hands-On Projects	Car Price Prediction: Built a regression model using Python (Pandas, NumPy, scikit-learn) to predict car prices. Sentiment Analysis on Social Media Data: Applied NLP techniques to analyze comments and visualize insights. Data Visualization Project: Created charts and graphs using Python libraries (Matplotlib, Seaborn) to present meaningful insights from datasets.
-------------------	--

Internships	Data Science Intern Prodigy Info Tech Remote 2025 Built predictive models and visualizations using Python, Pandas and scikit-learn. Web Development Intern Slytherin Pvt Solution Ltd Remote 2025 Contributed to front-end improvements using HTML, CSS, and JavaScript.
